EDUCATION

Bachelor of Computer Applications   CGPA: 7.71
Govt First Grade College,
Thenkanidiyoor, Udupi, Karnataka   Aug 2019 – Jul 2022

Science   Percentage: 72.66%
Jnanaganga P.U College,
Nellikatte, Udupi, Karnataka   Apr 2017 – Apr 2019

PROJECTS

Food Heaven   ○ Github
Fullstack Project

- Developed a full-stack application that lets users order and wait for food. Admin can manage products using the dashboard.
- Used Firebase for storage and retrieval of user as well as admin data. To alert the user used the React-toastify library.
- I used the Stripe payment gateway to process the payment.
- **Tech Used:** Node.js, Firebase, Express.js, CSS, vsCode, Git, Postman, Redux, axios, React-toastify.

Placement Cell   ○ Github
Backend Project using EJS

- Build this web application using NodeJS, MongoDB, and ExpressJS. The application allows users to manage student interviews and allocate them to companies
- I utilized the Passport.js library for authentication purposes
- The EJS view engine is being utilized.
- To display notifications, the Connect-Flash library is utilized.
- **Tech Used:** Node.js, MongoDB, EJS, Express.js,Mongoose, Passport.js, CSS, vsCode, Git.

SKILLS

- HTML
- CSS
- JavaScript
- React
- NodeJS
- ExpressJs
- Bootstrap
- PassportJs
- Git
- GitHub
- Postman
- Firebase
- MongoDB
- Redux
